### PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

Brown's Iron Bitters will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

#### Saved his Child.

17 N. E. 2nd St., Baltimore, Md.  
Feb. 12, 1883.  
Gent:—Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loath to believe that anything could arrest the progress of the disease, but to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required," and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."

ADAM FRIEL.

Brown's Iron Bitters effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and comfort to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

## COAST ITEMS.

A convent is to be established by the Catholics at Raton, N. M. John Price, a Stockton bootblack, is under arrest for whipping his mother.

The royalty on the water taken from the Napa soda springs amounts to \$1,000 a month.

The recent fire at Miles City, M. T., are supposed to have been started by an incendiary.

The Methodists at San Jose are holding a ten days' camp meeting at the Fair grounds in that city.

Nanaimo, B. C., mourns the loss of C. Carpenter, a miller, who owes \$20,000, and has taken a vacation.

George Blane, an engine-wiper, fell under the cars at Colton, Thurs. day night, and his leg was run over below the knee.

Richard Roberts was killed by lightning at Eugene, Or. His is the second death from that cause in the history of the State.

George Robinson, an aged miner living at Downsville, is gunning for a chump from San Francisco, who eloped with his young wife last week.

The southern terminus of the Carson & Colorado Railroad is now at Hawley, on Owens lake, about 300 miles from the Mount House, at the foot of the Panamint grade.

A fire that started at the residence of Mrs. Joshua Morales, at Red Bluff, Wednesday, destroyed the building and fatally burned a little girl and a young lady aged 25 years; names unknown.

A fish cannery has been started at Santa Barbara after the style of salmon canneries, to put up barracouts, smelt, sea-bass, rock-cod, mackerel, and other delicious salt-water fish, for shipment into the interior, where they cannot otherwise be obtained.

L. S. Benedict, Inspector of the Indian Agencies, has just visited Blackfoot Agency, in Montana, and says the Indians there have but few skin lodges, and their tepees for the most part are made of flour sacks and gunny bags. They have plenty to eat at present, but they are otherwise poor.

Some twenty years ago, F. C. Graves of Stony creek, Colusa county, set out a lot of walnut trees one of which will measure now at least four feet in diameter. The body is not very long, but the lumber from it would be worth \$50.

These trees have paid for the land they occupy a dozen times over with the nuts they have borne. The trees have been no trouble and have had no water.

Advice to Consumptives.

On the appearance of the first symptoms—general debility, loss of appetite, pallor, chilly sensations, followed by night sweats and cough, prompt measures of relief should be taken. Consumption is a scrofulous disease of the lungs; therefore use the great anti-scrofulous or blood purifier and strength-restorer, Dr. Pierce's "Golden Medical Discovery." Superior to Cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, splitting of blood, and kindred affections it has no equal. Sold by druggists. For Dr. Pierce's treatise on consumption send two stamps, World's Dispensary Medical Association, Buffalo, N. Y.

Iron in a colorless state and Persian bark combined with well known aromatics, make Brown's Iron Bitters the best medicine known.

Hope for Drunkards.

My husband's habits he could not overcome until Parker's Ginger Tonic took away his thirst for stimulants, restored his old energy of mind and nerves, and gave him strength to attend to business.—Cincinnati lady, July 30-1.

### TUTT'S PILLS

#### TORPID BOWELS, DISORDERED LIVER, AND MALARIA.

From these causes arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowed, costive, Sick Headache, Fullness after eating, aversion to exertion of body or mind, Stretches of food, Irritability of temper, Low spirits, Aching limbs, Nervousness, etc. etc. etc. Acting on the bowels, and restoring the liver, TUTT'S PILLS cause the system to get rid of all impurities, and demand the use of a remedy that acts directly on the liver. As a Liver medicine, TUTT'S PILLS have no equal. Their action on the kidneys and skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA. Sold everywhere. Office at Murray St. N. Y. TUTT'S MANUAL OF UTERINE DISEASES FREE.

### TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed instantly to a Glossy Black by a single application of this Dye. Sold by Druggists, or sent by express on receipt of \$1. Office at Murray Street, New York. TUTT'S MANUAL OF UTERINE DISEASES FREE.

## UTOPIAN FINANCING.

It is a taking theory to teach that an increased issue of paper money would break the power of money sharks, prevent panics and protect the producer. If we could see any foundation for such a belief, we would devote every energy to its accomplishment. The doctrine that if we had twice as much currency as we now have, it would enable farmers to pay off their mortgages and get out of debt, and they could then set the price on their own products, is being taught vigorously, but not convincingly. If the farmers got twice as much for their produce, they would always have to pay twice as much for everything, and so would be none the wiser. The truth is, doubling our circulating medium, would add nothing to the wealth of our country, unless it went at par all over the world, which it would not. The wealth of the country is the property it contains, and the currency of a country is simply the standard by which it is measured when it changes hands. Double your standard and each unit goes but half as far. The disposition of the people is what regulates the financial and all other transactions of a country. An energetic people will do just as much business, and a sluggish one will do its share, regardless of whether it measures by dollars or dimes. The curse of any system is fluctuating.

## CONCEALED WEAPONS.

Johnny Fulton, the boy who was shot at the Homestead at Gold Hill on Friday, died Saturday morning at 5 o'clock. No one believes that Hughes, the man who fired the fatal shot, intended to harm anybody, but it is the natural result of the foolish, reckless and criminal habit of carrying arms. In nine cases out of ten the man, who at this late day, does not feel safe without a pistol or a knife in his pocket, is an arrant coward, and usually one who is in the habit of becoming boisterously drunk. We have no desire to prejudice the public in this particular case, but it is a practice which should be denounced by the whole press of the State. It is poor comfort to the bereaved parents of the little boy to say that their child was taken from them by an accident. If it were possible, which is more than doubtful, for Hughes to offer a pecuniary recompense exceeding the amount ever paid by any railroad company for the destruction of human life, it would not in any degree palliate the inexcusable crime; for it cannot be regarded in any other light, and the cause of all this misery should be punished.

The sky man on the Post says: Now we know all about it? The economist of the Examiner furnishes the following lucid statement of the relation of money to value: "As values are gauged by money, and if money is depreciated, values are necessarily low. Standard money makes standard values."

The Aurora Herald, published at Aurora, Esmeralda county, Nevada did not long survive the removal of the county seat to Hawthorne.

## TELEGRAPHIC BREVITIES.

—Canton, Ill., had a \$25,000 fire yesterday.  
 —A sentinel at Lazaretto, Egypt, has been attacked with cholera.  
 —Lord Chief Justice Coleridge is strictly guarded during the setting of the British almanac, owing to threats against his life by Fenians.  
 —May Commandery of Knights Templar of Philadelphia, 100 strong, passed through Chicago to day en route for San Francisco.  
 —Julius Aronson, the professor of organic chemistry, has been ordered by the French Government to go to Egypt and study the features of the cholera epidemic there.

—The annual meeting of the American Society of Microscopists will be held in Washington beginning Tuesday next and lasting four days. A large number of papers will be read.

## Another Fool.

LOCKPORT, August 6.  
 Captain J. D. Rhodes, a swimmer of some note, having a life-preserving armor patented by himself, and who in 1877 dove from a staging 100 feet high, near the ferry landing, into the Niagara river, now writes Superintendent Neilson of Prospect Park, that he will use his armor and give \$1000 bond to swim the rapids and whirlpool, doing this at any time between now and September 25th, and he desired to make arrangements with the Park authorities, offering to deposit \$1000 with them as security. Mr. Neilson wrote him and declined to be a party in the suicidal attempt. Rhodes replied that he should come to the Falls, and if the authorities would not give him an opportunity, he would cross to the Canadian side from Captain Webb's starting point, and show to the world what his life-saving armor will do. He says: "It is not for any notoriety or money that I will attempt this, but purely to demonstrate that the armor I wear will carry me safely through. I shall come to the falls within nine days and make my points and carry out my plans."

## The Strike Spreading.

CHICAGO, August 6.  
 It is now definitely known on the admission of its officials that the operators employed by the Chicago & Alton road presented a bill of grievances to the company Saturday noon, demanding 10 per cent. increase and extra pay for Sunday work, and a release from sending commercial messages during the pending strike. The officials of the company say they are prepared for the strike, and will make no response whatever to the demand. In that event, the men will be called out to-day at noon. The Wabash officials neither admit nor deny the presentation of a similar bill of grievances, but the general belief is that a strike will be ordered on that road also, at the same time.

## Telegraphic Troubles.

CHICAGO, August 6.  
 Up to 1 o'clock this afternoon no telegraph operators in the railroad offices out of this city had quit their keys. At the general office of the Chicago & Alton a statement was made that none of their employees had left up to that hour, and the same was true of all other roads having their headquarters in this city. The officials of all the lines here have apparently guarded against the emergency, and have arranged to run all trains by printed time-tables, in case the number of men going out should make this necessary, so that no delay in the running of the trains will occur in any event.

## An Adjourned Meeting.

NEW YORK, August 6.  
 The United States Senate Commission on labor and education met in this city this morning and adjourned till the 13th. They intended to begin and investigate into the present telegraphic strike, but the witnesses, among whom were John Campbell, John Mitchell, Eugene O'Connor and other leaders of the strikers could not attend, owing to the additional duties devolving upon them in consequence of ordering out the railroad operators, and the postponement was granted on this account.

## A Small Row.

On the Ohio River Railroad a lot of negroes and Italians were working together blasting. The negroes put in a blast and ran to a safe distance. The Italians ran only a short distance and two were killed. The Italians pursued the negroes with revolvers, picks and dirks, and the negroes drew razors. Further trouble is feared.

## Knights Templar.

St. Louis, August 6.  
 A delegation of Knights Templar of a Massachusetts Commandery, accompanied by their wives, arrived here Friday. Ivanhoe, Taidemar and other Commanderies of this city met them here. From the depot they were driven to the Southern Hotel, where breakfast was served at 11 o'clock.

## They Continue to Fall.

Boston, August 6.  
 Barlow, President of the Vermont National Bank of St. Albans, also President of the Southwestern railroad, has failed, and that bank has closed its doors. Barlow says the embarrassment is due to unsuccessful railroad enterprises.

## An Old Soldier Goes.

New York, August 6.  
 George F. Jodis, aged 98, died yesterday in the Suffolk county almshouse, Long Island. He served under Napoleon, and was with him at Moscow and Waterloo.

## An Ex-Congressman's Opinion.

Chicago, August 7.  
 A special to the News from Saratoga says: H. F. Page of California came here yesterday. He is on his way west and will be joined in Chicago by ex-Congressman Haeletou; the two

will then go to New Mexico for rest and to look after cattle and mining interests. Page has been in Congress for over ten years. He is a man of great force of character. He has been so long in politics at Washington that he is thoroughly familiar with all the speculations and qualities of the leaders. Speaking of Arthur yesterday, he said: "I am surprised to see, in traveling about the country, what a very popular man he is; I believe to-day, he is the strongest man the Republicans can put on their ticket." After eulogizing Arthur's course in many particulars, he said: "I have been surprised in my intercourse with the President to find him a so much able man and finer read lawyer than the outside public have any idea of."

(PRESS DISPATCHES TO THE GAZETTE.)

## Serious Trouble in Alaska.

VICTORIA, B. C., August 6.  
 The steamship Eureka, which has just arrived from the north, brings the news of a horrible tragedy near Harrisburg, Alaska. Two whisky sellers, named Martin and Rennie, got on drunk together and during the night an Indian stole a bottle of whisky from Martin's cabin. In the morning the two men started after the Indians and, in a fight with them, Rennie was killed. The citizens arrested three Indians, confining them in the guard-house. During the temporary absence of the guard an India succeeded in procuring a revolver, and on the return of the guard shot him. Major Givins, formerly of the United States Army, hearing the shot rushed to the rescue of the guard, and was in turn shot down by the Indian, but only wounding him; another Indian quickly seized an axe and hacked his head to pieces. In the meantime the citizens had got wind of the affair and set out after the Indians, two of whom managed to escape to the woods. The posse of citizens chased them and captured one, hanging him on the spot, together with one who had remained. The next day Colonel Horry ordered the chief to bring in the third Indian, which was promptly done, and he was as promptly hanged.

## A Costly Riot.

LONDON, August 6.  
 The Jewish residents of Ekaterinoslav, Russia, were attacked by a mob on the 2nd inst. Soldiers were called out to disperse the rioters, 10 of whom were killed and 13 wounded. The trouble was caused by a Jew insulting a peasant woman. The Town Council of Ekaterinoslav resolved to give the Jews 5,000 roubles to compensate them for their losses and to provide shelter for those who were rendered homeless.

## St. Petersburg, August 6.

The riots at Ekaterinoslav caused by the animosity against the Jews, were continued on the 3d inst. The mob attacked the Jewish quarters and destroyed many houses and liquor stores belonging to the Jews. It is now reported that 100 persons were killed and wounded during the rioting in town.

## Considerable Unrest.

LONDON, Aug. 27.  
 The murder of Carey continues to be the sole subject of conversation in London and in Dublin. Carey himself chose to go to Natal; he would not go to Australia because he knew too many Fenians who, fearing arrest, had escaped to that country. It is an open secret that Earl Spencer, Lord Lieutenant of Ireland is much annoyed by the murder of Carey, and the prevention of Kavanaugh and other informers from landing at Melbourne.

## Fig-Headed Germany.

BERLIN, Aug. 6.  
 The German Admiralty have ordered the Commander of the men-of-war to limit their supplies of American pickled pork to what is necessary for the sustenance of their crews during the passage home of vessels from foreign ports. The object of the order is to avoid the handling of any such pork at German ports.

## A New Cardinal.

NAPLES, August 6.  
 A child which was buried in the ruins at Casamicola at the time of the earthquake, on the 28th ult., was rescued alive last Saturday.  
 The Pope has decided to make the Archbishop of Naples a Cardinal, as a mark of recognition of the services here rendered to the sufferers by the earthquake.

## A Small Rebellion.

LONDON, August 6.  
 It is reported that a military rising has taken place in the Spanish province of Badajoz, on the Portuguese frontier, and that the regular authorities have been arrested. The telegraph and railway lines between Badajoz and Portugal are interrupted.

## The Injured at Ichia.

NAPLES, August 6.  
 Nineteen persons injured by the disaster at Ichia died in the hospital here during last week; one hundred others, also wounded, were discharged from the hospitals cured.

## Murder and Suicide.

CHICO, August 6.  
 Mollie White, a reformed woman of the town, who was betrothed to Riley Strahl, a well-to-do teamster, poisoned him and herself last night with strychnine. Strahl died in a few minutes, but at last accounts the woman was still alive, but unable to render any account of her object in committing the deed.

## Another Pioneer Gone.

SAN FRANCISCO, August 6.  
 Captain Alfred Henry Wilcox, a California pioneer, died yesterday morning. The deceased was for many years a resident of San Diego. He arrived on this coast early in 1849, in command of the schooner Invincible.

## The People Protest.

LONDON, August 6.  
 A great demonstration took place today in Trafalgar square, the object of which was to protest against the exclusion of Bradlaugh from the House of Commons. Over 30,000 persons were present. The meeting passed resolutions favoring Bradlaugh.

## A Murderer Lynched.

WALLA WALLA, August 5.  
 McPherson, the murderer of Cummins, the railroad agent at New York Bar, was lynched by the Vigilantes at Dayton last night.

## TELEGRAPHIC BREVITIES.

—Eight hundred and seventy deaths from cholera in Egypt on Saturday.  
 —The Paola Club at Washington will open its elegant track and grounds in October.  
 —Seven persons, the most whom Europeans died in Alexandria, Egypt, yesterday from cholera.  
 —It was reported in Pittsburg this morning that the railroad operators were to strike at noon to-day.  
 —One hundred and ten British soldiers have died of cholera in Egypt since the outbreak of the disease.  
 —There is a general stagnation in the New York boards. Everybody is too busy and too sensible to gamble.  
 —President Arthur's party spent Sunday at Green river, and left on Monday in three wagons for Yellowstone.

—A mass meeting of workmen in the interest of the striking telegraphers announced for Fairmount Park, Philadelphia, to-day was not held, the authorities refusing the use of the park.  
 —Monsignor Capel, the distinguished prelate, preached his first sermon in New York yesterday at the Church of St. Francis Xavier. The edifice was crowded and hundreds of persons were unable to gain admission.

The outbreak among the Spanish troops, reported from Portugal, occurred in the city of Badajoz, the capital of the province of the same name. The garrison of the town, numbering 700, pronounced for a Republic and the Constitution of 1808, and for Ruiz Zorrilla for President. Several regiments of soldiers have been dispatched to Badajoz to suppress the uprising.

## Informers Still Alive.

MELBOURNE, Aug. 6.  
 Kavanaugh and other informers are still on board the steamer Parthian. The Governments of New South Wales and Victoria are negotiating with men trying to settle the difficulty.

the tent by the hair of her head.

3. THE CLARKS, in startling loop, in

NOTES.

The first on board—J. Barnett. There are 14 prisoners in the county jail.

Four cars of emigrants went west yesterday. Got your cash ready, J. Barnett's clearance sale begins to-day.

Immense bargains! come early to J. Barnett's great clearance sale. A leak in the water pipe on Virginia street is being repaired to-day.

A Lindley sent four more men out to the White Plains mines this morning.

C. J. Brookins has three first-class buggies for sale cheap. See 50 cent ad.

Florence baskets at Nasby's. Thermometer at 7, 9, 11, 1, 3—86, 76, 80, 82, 83.

Three cars of California fruit were attached to the east-bound express yesterday.

The very satisfactory trade of Levy & Bro., the Virginia street dry goods firm, has been acquired by dealing in none but first-class goods and close attention to the wants of their customers.

Knowles & Balford, the Commercial Row dealers in ranges, stoves, tin and agate wear, continue to increase their already extensive business. Good wares and low prices will bring trade.

The Pacific Brewery, George Becker proprietor, is turning out as good beer as ever was sold by the glass, bottle or keg, and a good place to sample it is the Granite saloon, on Commercial Row.

Perkins and White of the Palace Hotel are born hotel keepers. They seem to intuitively understand all the needs of the traveling public, and spare no pains or expense to make their patrons feel at home.

The wholesale and retail grocery store of A. Lindley & Co., on Virginia street, continue to not only hold their trade, but are constantly increasing it. Their customers find all goods as represented, and come again.

Chelofovich & Co., the wholesale and retail liquor dealers, Commercial Row, have established a trade in this place which shows the effect of square dealing. No danger of being poisoned by drinking anything they have to sell.

No cleaner, quieter and comfortable place can be found in or out of Reno than that kept by Chase & Thyes, on Virginia street. Their customers are all of the better class, who know where to go to get a comforting drink. The latest daily papers are always on their tables.

How He Got Well.

The Doctor had spent three terrible nights of anxiety over the bed of the sufferer. The boy's father had not slept since the accident.

"Will his leg have to come off?" "Yes," replied the Doctor sorrowfully, "and even then his life may not be spared."

Just at this juncture strains of inspiring music were heard on the street.

"What is that?" asked the pale-faced hero of last week's boiler explosion.

"It's the band of Callender's Minstrels."

"What are they coming to town?" inquired the boy with drops of sweat still glistening on his brow.

"Yes, in three days," responded the good man of science.

"Well, then, for two days I shall suffer enough to kill two men, but on the third day I shall be at Callender's Minstrel show if crutches and money can get me there."

"They will make their appearance at the Nevada Theater next Wednesday evening, and you can bet that I will be on deck."

Car Burglary.

Yesterday morning, the yard man of the Central Pacific discovered that a west-bound freight car standing on the side track near the stock yards, had been burglarized. An examination of the contents showed that several boxes of goods had been opened, but it is not known what had been taken. The theory of the railroad men here is that the thieves were locked in the car at Ogden, intending to go to San Francisco, but finding the car had been side-tracked, concluded to cut out and take something along to pay expenses. The seals on all the doors were found intact. There were five arrests of suspected parties made yesterday, four of whom were discovered in a wagon car.

Justice Court.

Indian Dick who was arrested Saturday for an assault on an old man named Porter by hitting him on the head with a rock, received thirty days in jail. Dick was greatly relieved to learn that he was to make the circus.

Charley Cahill, arrested for a d. d., was allowed to go on his own recognizance to appear at 10 o'clock to-morrow for sentence.

Mrs. Simmons, another d. d., will be interviewed this afternoon.

A Runaway.

Zelgers team attached to his brother wagon took a pretty lively spin down Virginia street this afternoon, but were caught before doing any material damage.

A GOOD WOOD.

Yellow Pine the Rival in Beauty of Any Wood.

These old mountains are full of what in thickly settled countries would be wealth. All around us are things that will some day be sought after. The Northwest Lumberman says of a tree that is almost without honor in its own country except for wood and coarse lumber: Yellow pine, hard finished in oil, is the rival in beauty of any wood that grows, not excepting the costliest hard woods. It is susceptible of receiving and maintaining as high a degree of polish as any wood with which we are familiar, and as to durability, when thoroughly impregnated with oil, it may be said to be almost everlasting. In such a condition it is impervious to even hot grease and substances that leave an ineffaceable stain upon white pine, maple and various other woods. Flooring for use under carpets should be largely sap, and when exposed either for inside or outside use, should be as near all heart as possible. For inside trimmings, wainscoting or panel work, the curly variety, which, by the way, can only be obtained in limited quantities, and ought to bring from \$60 to \$80 per thousand in any market, instead of only \$40. That sum—in the writer's estimation at least, superior to either cherry or bird's eye maple.

A Heavy Rainfall at Eureka.

The Eureka Sentinel of the 4th inst. gives us the following: We got the biggest rainstorm of the season yesterday. Beginning about noon, it rained with short intervals all the afternoon. While at some places in the neighborhood, Secret Canyon for example, there has been no rain at all, in others the rain-fall has been remarkably copious. Mr. Capron, who came in yesterday from the direction of Hamilton, tells us that when he passed the old Maryland Wells the water on the flat and in the road at that point covered the ground to a depth of 18 inches.

An Effort for Freedom Thwarted.

The prisoners in the Red Bluff, Cal., jail have just been thwarted in a very cunning trick to break jail. One, a young man named Wood, who murdered a companion named Oscar Howell, had a friend make an effort to furnish him a watermelon. The melon, a perfect Jumbo in size, was taken to the jail on Sunday, but the Deputy Sheriff suspected there was something crooked about it and cut the melon in two. Inside of one piece was found a small file, and in the other were several delicate saw blades.

A Dry Goods Pioneer.

Under the head of "New To-day" will be seen the advertisement of I. Barnett, the pioneer day-goods merchant of Reno, who commences to-day to make his usual semi-annual clearance. All Summer goods, for the next 20 days, can be bought for cost price, as he does not propose to carry that class of goods over to another season. Mr. Barnett's sagacity as a dry-goods dealer is unsurpassed by any; he knows exactly what the people of this part of the country want, and never fails to have the exact article on hand, at a reasonable price. Remnants can be had at your own price.

Wandering Pilgrims.

It is really amusing to see some of the eastern pilgrims who arrive here by rail, traveling about the depot building with a quart cup in hand, apparently hunting for a well or some cheap coffee stand. The depot hotel is too large for them, and they frequently become confused and come out on the V. & T. side of the building with a bewildered and distressed expression of countenance that is ludicrous.

A Hopeful Sign.

The young Mormons of Beaver county, Utah, have jumped clean out of the traces, says the Times-Review. The church, at a recent convention in Beaver, nominated the Church ticket, and as several of the candidates nominated were objectionable to the young Mormons, a convention was called by the young men and opposition candidates were nominated.

Interested in Fire and Water.

Such men as Capt. Ben Bullwinkel, of the Fire Patrol, Chicago, Ill.; Thomas F. Nevins, Chief Engineer Fire Department, Brooklyn, N. Y.; Jas. Thompson, Esq., Fire Marshal, Philadelphia, Pa.; Thos. Willard, Esq., Fire Commissioner, Albany, N. Y., have used the infallible cure, St. Jacobs Oil, and endorse and recommend it.

A Useful Device.

D. S. Tallman has an invention for removing broken spokes from the hub. That apparently simple thing is said to be the bone of the wagon shop. He has a clamp which takes a death-grip on the spoke, and then a mallet and lever that pulls straight back with immense force. It is likely to become universally used.

Almost a Fire.

Last evening about 8 o'clock, the house of Mrs. P. Walker, near the Gas works, was discovered to be on fire, but it was extinguished by Doc Hogan before making much headway. The damage will be about \$200, covered by insurance.

PERSONALS.

Senator P. N. Marker is in town. D. Cline, the hotel and livery man of Carson, went west to-day.

Dr. P. L. Kirby of Virginia took the east-bound train this morning for Wadsworth.

E. B. Rail, the Carson hardware merchant, arrived from the west this morning.

James Kelley and family of Virginia City were visiting friends in Reno yesterday.

Mrs. Vossburg and Mrs. J. F. Alexander were passengers for California this morning.

D. A. Bender, General Freight Agent of the V. & T. and C. & O., was in town yesterday.

Hank Smith, the ex-Comstock mining superintendent, arrived from the East this morning.

Col. Matt. Casaway came up from the Bay this morning and left for Virginia by the V. & T.

Mrs. Steers, the wife of the night telegraph operator at this place, returned from California yesterday.

C. P. Bailey of San Jose, California, the Angora glove and robe manufacturer, was in town yesterday.

Mrs. Hayward of the Carson Mint arrived from Oakland this morning, where she has been visiting her sister.

E. H. Palmer of Palmer & Ray and the San Francisco Newspaper Union, is here to-day on his way east.

R. C. Corbaley, traveling agent for A. L. Bancroft & Co., spent the day in Reno yesterday, and went to Carson to-day.

John Valentine, General Superintendent of Wells, Fargo & Co.'s Express, was a passenger for California yesterday.

J. S. Walsh, an old Comstock miner and a brother of the late Hon. John Walsh of Storey county, went below this morning.

Phi Bates, foreman of the logging camp near Clinton, on the C. P., spent the day in Reno yesterday, and left for home this morning.

Porter Ashe, the best advertised man on the coast, accompanied by his wife and sister, was a passenger on the east-bound express yesterday.

Surveyor-General Powning, Nate Roff, John Myers and P. H. Mulcahy left for Eureka yesterday, to attend the Grand Lodge of the Knights of Pythias.

Miss Ella McNeely, a former school teacher of this place, left this morning for Oakland, where she purposes taking a collegiate course of study.

Evan Williams, Superintendent of the Morgan mill at Empire, accompanied his family as far as Reno this morning, who went to California on a visit.

Charley Queen, a former resident of Reno, arrived this morning from Idaho, where he has been on legal business. Mr. Q. is now living in San Francisco.

That chief of frauds and demagogues, Denis Kearney, accompanied by his running mate, Steve Maybell, passed towards the sandlots on this morning's train.

M. P. Langford, the Government examiner of National banks, dropped in on the First National Bank of Reno this morning and found everything in a satisfactory condition.

Mrs. Lanfair, sister of A. H. Barnes of the Golden Eagle Hotel, who has been visiting here for some time, took the west-bound train yesterday to join her husband in Northern California.

H. M. Yerington of the V. & T. wife and daughter arrived from Carson yesterday morning. The daughter took the train for the East, where she goes to complete her education.

J. W. Kinaley, Grand Master Workman of the A. O. U. W., went out to Lovelock yesterday, where he delivered a lecture last evening, and purposes instituting a lodge of the above order.

Secretary of State J. M. Dornier, Lawrence Elrod of the Carson Mint and Alex. Laporte, all of Carson, were passengers on the east-bound train yesterday, to attend the Knights of Pythias Grand Lodge, which will meet in Eureka to-morrow.

Hon. W. H. Claggett, an early settler in Humboldt county, and who afterwards practiced law in Virginia City and represented Storey county in the State Senate, and subsequently moved to Montana and represented that Territory in Congress, has moved, with his family, to Portland, Oregon, where he proposes to settle and continue the practice of law.

An Excursion.

Schooling and Bragg of the N. & O. will run an excursion train from Onelda to Reno on next Thursday, the 9th, leaving Onelda at 9 o'clock in the morning and returning the morning of the 10th. One dollar buys a ticket for the round trip. This arrangement will give the Long Valley people a chance to see the circus without riding through the hot sun and dust.

Nature's Photography.

The Flumas National says: Bell is finding some same slate in one of the Bell tunnels which is curious on account of the strange shapes pictured on the slabs. Faces, birds and animals can be found photographed on the rocks, and some of the specimens are interesting.

CALEDONIAN PICNIC.

The Entertainment at Carson last Saturday.

Reno people who attended the Caledonian picnic at Carson last Saturday were well pleased with the whole of the entertainment. While it is next to impossible to keep all the roughs and disagreeable people away from the grounds at a public picnic, there was a marked improvement over what was witnessed at the Pioneer picnic. It is estimated that there were 1500 people on the grounds to witness the games of the muscular sons of Scotia.

The published programme was carried out to the letter, including the ladies' foot-race, which afforded considerable amusement. The shooting match was won by the Emmets of Virginia City. The following is the score: Emmets, 423; Carsons, 416; Washingtons, 410; Nationals, 397. Captain Frazier won the prize for the best individual score, securing 47 out of 50.

Everybody is using, and everybody is recommending, to everybody's friends, Brown's Iron Bitters as a reliable iron medicine, a true tonic.

The Break Repaired.

The first train over the new bridge above Verdi passed over about 10 o'clock yesterday.

A special train of three cars of emigrants and eight cars of green fruit was immediately made up and sent through to Ogden ahead of everything. Four cars of delayed fruit arrived here for the South, and were sent over the V. & T. as soon as received at this depot. The temporary structure will soon be replaced by a fine Howe truss.
